21) What I find good about the course is ...

the topic, combination of political & historical sciences... openness towards different forms of research I really enjoyed the workshop / different presentations (but it was too hat!)

Great open discussions + the format (the workshop) The teacher's flexibility to go with the direction of discussion based on what interests students the most The teachers enthusian for the topic + engaging with student + their The teachers enthusian for the topic + engaging with student + ideas

+ state of the put research

+ good mix of qualitative and quantitative papers

+ different approach to political science

CONCEPT OF WORRSHOP

-coortshop, recent research, sharing of non-published papers + conferences chalces "legacies" as a research field (palpable)

THE TOPIC : VERY BARELY IN THIS "DEPARTMEN!" THE STRUCTURE WITH TRESENTATIONS ONLY ATTHE ENO & LITTLE TASKS IN THE BEGINNING

- good structure - the workshap - good handlog of difficall' shull to

· use of blodibad · it's interactive +intersting but not too much singpawin · lecture seems very motionited · Guildshop is useful iclea

· that you think of your Ander & as researchers, who can help you · taking es scribes by /· you explain complicated phenomena very well

The impount of oval discussions and debates

The content, structure, guest lectures, and focus on current research.

borkshops

bollocent course + fascinchig discussions

Workshops feedbach as research projects, Workshop . open-nondness of the lectures odresses the needs of the quants very noticeted fectures fectures provided clier explanations on elans 22) What I do not find so good about the course is ... Number of people attending - complete lach of digital -time management in class - discussions + moderation material sometimes the "roter Faden" disappears THE TEMPERATURE OF THE ROOM IN THE WORKSHOP Maybe you could use / plad some slikes with basic information of concepts / early

· group work (not a fan)

Covers several dimensions within the field

I think the class should be offered in 2 sections to fit all those interested; the class was slightly rushed content use and the reviews should be gradled.

pore Group Work! less fromatal feaching

Better managent - D. e.g. catting of students that when completely prelevet coments that don't contribute completely prelevet. Slightly hove reading

23) I would like to make the following suggestions for improving the course:

may be not accept everyone at the beginning... but this would be harsh and in the end only ~ 25 students remained, so it was only get a room with AC for the workshop

- more lively discussions

- longer or more gatobol discussion time etworkshop - more Information on CHA daving sensible

· a little less group work

Discuss not just specific papers but open it too contributions relevant to the stopic.

The lecturer should have more confidence that the is an effective and good lecturer. Disrepedful students should be remard. The course is enjoyable and interesting cural.

pore blevelive about lithet really a, legers" is
